Dipl.-Ing. Dr.techn. Katalin Fazekas

Coordinates & Personal Data

TU Wien
Institute of Logic and Computation
Formal Methods in Systems Engineering 192/4
Favoritenstraße 9–11, Vienna, A-1040

ORCID: http://orcid.org/0000-0002-0497-3059
Web: https://kfazekas.github.io/
Email: k dot katalin dot fazekas at gmail dot com
Nationality: Hungarian

Main Areas of Research

- **Automated reasoning**, especially decision procedures for SAT, SMT and QBF.
- **Formal verification**, especially model checking and symbolic execution.
- **Optimization problems**, especially with pseudo-Boolean objective functions.

Education

2015 – 2020: Ph.D., Computer Science, Johannes Kepler University Linz, Austria
Thesis: **On SAT-based Solution Methods for Computational Problems**
Supervisor: Armin Biere

2012 – 2015: M.Sc., Software Engineering, Johannes Kepler University Linz, Austria
Thesis: **EUF-Proofs for SMT4J**
Advisors: Armin Biere & Martina Seidl

2007 – 2011: B.Sc., in Software Information Technology, Eötvös Loránd University, Budapest, Hungary
Thesis: **Implementation of Resolution Refutation**
Advisor: Tibor Gregorics

Research Visits

April – June 2018: Albert-Ludwigs-Universität Freiburg, Freiburg, Germany
Collaboration with Christoph Scholl

Febr – April 2017: University of Toronto, Toronto, Canada
Collaboration with Fahiem Bacchus

Career History

Since Aug 2020: **Postdoctoral Researcher**, TU Wien
Group of Formal Methods in Systems Engineering
Formal verification for software of automotive systems

Nov 2015 – March 2020: **Project Assistant**, JKU Linz
Institute for Formal Models and Verification

2018WS, 2019SS: **Lecturer**, JKU Linz

Formal Models: Mandatory exercise courses for 150+ Bachelor students

Special Topics - **Software Verification**: Advanced M.Sc course, responsible for exercises and tool demonstrations.

Professional Activities

(Sub-)Referee: International Conference on Tools and Algorithms for the Construction and Analysis of Systems (2019);
Journal on Satisfiability, Boolean Modeling, and Computation (2018);
Conference on Theory and Applications of Satisfiability Testing (2018);
International Conference on Computer-Aided Verification (2018);
Formal Methods in Computer-Aided Design (2017);

Additional Research Achievements

Honours, Awards

2020: **Simons-Berkeley Research Fellowship for Spring 2021**, University of California, Berkeley, USA
Program of Satisfiability: Theory, Practice, and Beyond

2019: **Best Student Paper Award**, Lisbon, Portugal
22nd International Conference on Theory and Applications of Satisfiability Testing (SAT)

Outreach

May 2019: Falter Heureka / Jungforscherinnen, Austria
`https://www.falter.at/heureka/20190522/logik-fur-das-digitale-zeitalter/182b118072`

Invited Talks

Nov 2020: Incremental Inprocessing in SAT Solving
Workshop on Formal Methods in Computer Science, Eger, Hungary (online)

July 2019: Implicit Hitting Set Algorithms for Maximum Satisfiability Modulo Theories
Workshop on Logic and Search (LaSh 2019), Lisbon, Portugal

Publications

International Conferences – Peer Reviewed
